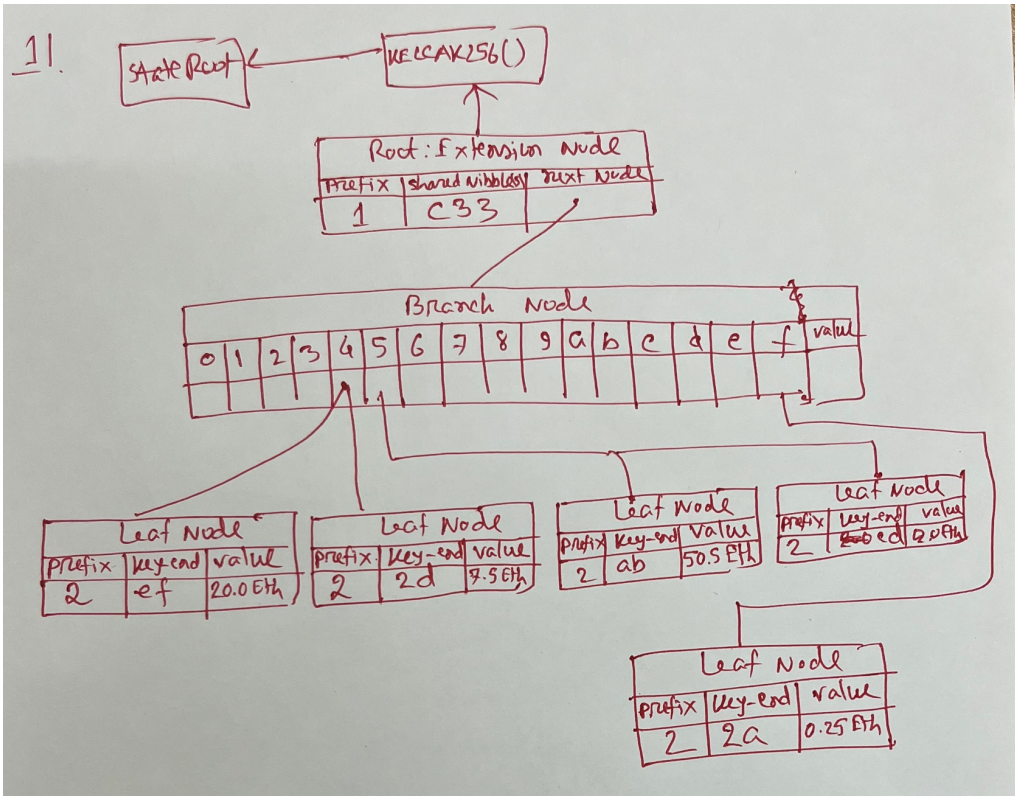
MPT Homework

1. A simplified world state in presented in the following Table.

Address						Value
c	3	3	4	e	f	20.0 ETH
c	3	3	5	a	b	50.5 ETH
c	3	3	f	2	a	0.25 ETH
c	3	3	4	2	d	7.5 ETH
c	3	3	5	c	d	2.0 ETH

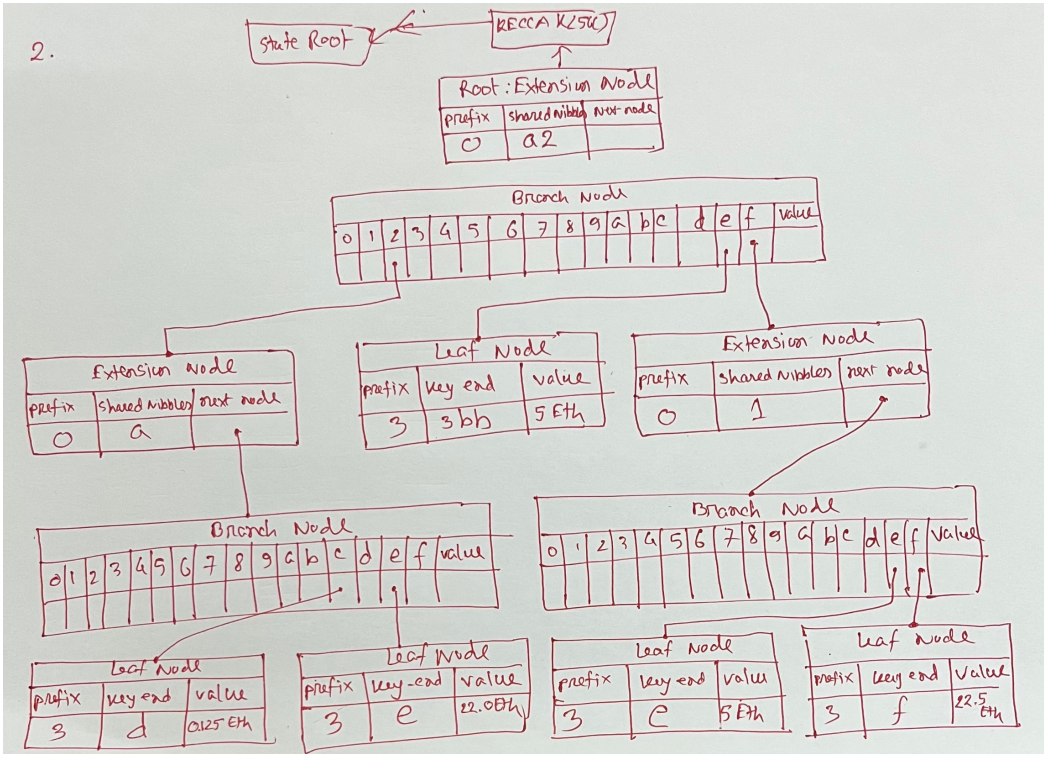
Determine the MPT using the addresses and values of the Table.

Solution:
This addressing has some issues as it results in the following wrong MPT table. That means this is not a valid address table.



2. A simplified world state in presented in the following Table.

Address						Value
a	2	e	3	b	b	5 ETH
a	2	f	1	e	e	5 ETH
a	2	2	a	c	d	0.125 ETH
a	2	f	1	f	f	22.5 ETH
a	2	2	a	e	e	22.0 ETH

Determine the MPT using the addresses and values of the Table.


Solution:
